Our Vision

“Empower students through quality education and augment their holistic development for a sustainable future.”

Our Mission

“To create an enlightened and vibrant society through integrated and multidimensional development of students’ SD by emphasising on all-inclusive education”

Our Objectives

- To build a society based on secular, democratic and non-discriminative values.
- To empower every individual with knowledge, self-confidence, competence and conscience.
- To provide a safe, conducive learner friendly environment.
- To make students adaptable and employable to the changing needs of the industry.

Editorial.

We take great pleasure in placing before our readers yet another edition of ‘Cuncolean 2020-2021’. Yes, the year will go down memory lane for both the good and the bad the world witnessed. On the health front our country saw the approval of Covishield and Covaxin for emergency use to tide over the covid pandemic. Perhaps for the first time, India celebrated its 72nd Republic Day without any guest. Our country was a witness to several natural calamities including Cyclone Tauktae and Uttarakhand’s glacier burst that killed several people.

On the academic front the year started on a totally different note. As regular classes began in online mode teachers made concerted efforts to make the teaching-learning process a fruitful one. Perhaps for the first time as virtual teaching -learning became the new norm, academic content was prepared extensively using tech-tools. It is worth mentioning that the pandemic could not deter us from conducting various activities for our students. A look into the pages from the college diary proves the point. The NSS Unit headed by proactive Programme Officers Mr Vinod Kankonkar, Ms. Yashmita Gatwal, Ms. Tina D’Souza, managed to organize numerous awareness programmes. The awareness programmes organized were diverse and included current issues like Covid 19, HIV and AIDS, Better Health and Sanitation, Water Conservation, Yoga Asanas, Drug Abuse and Vanamahotsava. The unit also helped students to put to use their creativity through the creation of documentaries on various topics. This exercise saw the creation of documentaries on Disaster management, Self Defence for Girls, Water Harvesting, Road Safety, Mission Rabbits and Solar Power.

Even though, on account of the pandemic, elections to the student’s council and cultural council could not be conducted, various activities were organised for our students. Teachers who headed these councils were at their best helping students get in a creative and imaginative mood and tide over the pangs of not being able to meet their friends and acquaintances.

I conclude this editorial on an optimistic note hoping that the pandemic will pass off soon and the academic calendar will be reverted back to its previous status. I also take this as an opportunity to thank our student contributors who have painstakingly penned features giving additional weightage to this edition.

Editor.

Chairman's Message

The Cuncolim Educational Society college of Arts and Commerce was started with a motto to make education accessible and affordable to the people of Cuncolim and the neighbouring villages. Through all the struggles and challenges, the Society today has achieved the status of one of the notable institutions of higher education in Goa. Today the Society caters to the educational needs of thousands of youth in Cuncolim and surrounding areas including the adjoining cities.

The Society's motive is to bring positive change in the mind-set of young generation. Along with academic achievements the Management aims to facilitate students to look forward to wider horizons and become honest and responsible citizens of the country.

The Management's focus is to nurture the young vibrant minds to face the challenges through holistic education.

We at CES welcome the young aspirants to our Institution of higher learning to experience the difference. The Management is committed to provide opportunities and facilities to develop the overall personalities of the students and make them globally competent and responsible citizens.

“An Investment in Knowledge pays the best Interest”. Benjamin Franklin

Shri. Dilip S. Dessai

Chairman

The Cuncolim Educational Society Cuncolim, Goa

Principal's Message

Established on 1st August 1987, the Cuncolim Education Society's College of Arts and Commerce offers undergraduate Choice-Based Credit System (CBCS) programmes in Bachelor of Arts (B.A.) and Commerce (B.Com). Over the years the college has succeeded not just in mobilizing adequate educational facilities but also in nurturing the talents of students thus placing responsible and responsive citizens in society. The institution is growing on all fronts and this is evident from the increase in the enrollment of students each year. The academic year 2020-21 saw a student strength of 560 (both Arts and Commerce programmes). I feel proud to place on record that the number of female students enrolled with us stands at 65 percent. Our students are exposed to Conventional and Non-conventional based teaching-learning environment along with a host of sports, co-curricular and cultural activities. We have ICT enabled classrooms, a well-equipped library, an IT Centre, a Geography Lab, NCC unit, NSS unit, a Nature Club, a Literary Association and Sports Council for an all-inclusive development of students.

We believe that the talents, skills and the abilities of each student need to be identified, nurtured, and channelized so that he/she is able to reach greater heights in life. Our experienced and dedicated faculty is persistently working hard to develop excellence in academics, combined with social values and extra-curricular activities in students. Even though the year 2020 -21 did see the academic calendar going through frequent changes and disruptions on account of the Covid19 pandemic, our teachers made sincere efforts to make the teaching-learning process equally enriching in online mode.

We work in co-ordination with all our stake holders - students, parents, well-wishers, alumni, employers and the community at large- for the academic excellence and welfare of the students.

Our Girl Child

By: Durgeshwari Shinde

<p>Our girl is a treasure, Having great pleasure. She is the future of our nation, Having big passion. She is our angel of unforgotten grace, As everyone depends on caste and race. She is our gracious girl, Just like the precious pearl. We will let her fly high, Just in the beautiful sky. As she talks and play, I love to hear her voice through out the day. There are no feelings to hide,</p>	<p>When she asks mumma how is the world outside.</p> <p>She is the pride that I feel, With all dreams she achieves. Our girl is a treasure, Having great pleasure.</p>

Impact Of Covid 19 On Our Lives

By: Jeslyn Silva

<p>Gone are the times when I could spill outside and enjoy, but covid helped me fetch my home just like a toy.</p> <p>All day watching the news, Waiting for one, the best to choose sitting back home, sharing my thoughts under the dome</p>	<p>Stopping myself from normal undertaking To changing my life as I have always been living Just to re-learn and understand many other things</p> <p>Thus, new normal will turn us as better human beings Just a ray of hope will make the choruses sing.</p>

Keeping our Surrounding Clean and Green

By: Jeslyn Silva, FYBA-B

“Cleanliness is next to Godliness”so goes a famous saying. How true! Being clean in body, mind, soul and surroundings and your life on earth will be a living paradise. Goa is a beautiful place known for its scenic beauty. The green fields and the cascading waterfalls, not to mention its forest and beaches

all attract a large number of tourists from all over the world. However, this influx of tourists has had an adverse effect on all public places. The problem of garbage has reached disastrous heights. Indiscriminate littering of plastic, spitting in public, and urinating any and everywhere has taken its toll on public cleanliness. This is a beginning of cause several health problems and extensive damage to the flora and fauna of our beautiful Goa. Coming back to the major responsibility to keep our surroundings green as my topic states. A day will come when we will have to explain to child what a tree is by visuals instead of pointing out to the tree. We are yet to realise that wanton destruction of forests is actually the destruction of our mother earth. So, it's high time for us to wake up to the menace of pollution and start on a manic drive of cleanliness. Dustbins should be provided in all the public places and these should be emptied regularly. Separate bins for dry waste should be encouraged in household s and public places. Children should be taught to reduce, reuse and recycle. Heavy fines for spitting, smoking and urinating in public places. I would say that “*If you'll can't make it clean atleast don't make it dirty “Also keeping in mind about ‘keep it green’. Forest should be protected at all costs. People specially children should be taught to love trees. Festivals like vanamahotsav should be encouraged. Strict Fines and punishments should be imposed on indiscriminate and unnecessary felling of tress. Atleast two or three more tress should be grown in place of a tree that is cut down. Lastly, I would say “let us not just dream about keeping it clean and green but also make this dream come true “.

Restore Our Earth

By Esha M Kankonkar- FYBA-B

22 nd April is observed as Earth Day internationally to demonstrate support for environmental protection. It also marks the anniversary of the birth of the modern environmental movement in 1970. We all live on the planet earth. Earth is the only planet which has life on it. Mother earth has given us many, things. It is our responsibility to conserve it and ensure that the upcoming generation gets a better environment. Our mother earth is in danger. And the reason behind this is nothing but the so-called humans! Humans are destroying the natural resources and misusing it. If you have to save earth, frist save these resources. In order to take appropriate steps, we should stop pollution and not forget that global warming are a threat to the environment. As a result, the Earth and its environment have been affected so. Adversely due to many of human's activities. Therefore , we humans need to take care of our the Earth . Deforestation industrialization, etc . Have all affected the natural equilibrium of our Earth AIR pollution, water pollution, soil erosion . Are some of the environmental issues which causes harm to humans itself. Clearing of forest , cutting of tree has surely led to ecological damage hence , every singled effort on our part to save the earth and environment can make a difference too.. so , only we have to decide whether to harm the environment or damage it.

Avengers to Aarey reasons 2 years ago the people of Mumbai were divided on the metro car shed matter. Let me remind you about it Mumbai is upgrading to cut down traffic and pollution 6 metro lines are being built overall this is a good idea because every good city needs good public transport. The proposed to build a car shed in Aarey which is the last green. Lung of Mumbai and for this they had to clear around 2100 trees! It's not just cutting trees it's destroying an ecosystem! Replacing soil

with cement and although there were a lot of protest ultimately trees were chopped down there was lots of change of outrage... Protest are great! But action is better! That's what they decided to do! One tree at a time! If 2,000 trees are cut let's plant 4,000 more! Defeating a big enemy like climate change is not a joy for single Hero we need a team of Heroes that's why they have #treesena. Treesena is a initiative by saiman - Youtuber, subhjit – water management expert and sagar – an environmentalist, they grows those plants which are suitable for the particular environment such as sapling. The cost of one sapling is Rs.380 which includes. The compost, pitmaking, transport. And those are 5 feet tall saplings their survival rate is more than 96% there will be a gardener taking care of these plants through out the year and then they will go on to be saviors of the planet! Out of the total 4,000 trees to be planted all over Mumbai 200 were planted in bimbisar nagar and more are coming even small kids are also part of it they come to watering those plants. Who told them that the plants need care? Our young generation is generous and is understands treesena's initiative is great and that's what I want all of us should do as well if. If the people in this society can do it... So can we! This reminds me of that line from deadpool... Being a Hero is not a Full time job... But there are moments and the decisions that you take in those moments that make you Hero! These people the members of the society who took the responsibility of taking care of these plants saiman and many, many influencers and hundreds of volunteers who gave their precious time made a choice they choose a solution, they chose nature, they chose to collaborate and that's what makes them...Heroes! After knowing all this so...

WHAT CAN WE DO?? 1:- First of all plant a tree or maintain a small garden as a token of love towards nature, 2:- 3-R's are the best way to restore our Earth. Reduce, Reuse and Recycle waste and plastic can make our Earth a better place, 3:- Conserve water and avoid wasting water, 4:- Engage in nature walk and enjoy the surroundings, 5:- Always choose sustainable and eco-friendly products. Because I believe that protecting nature begins with each of us.. Your choice make you who are! So, Save Earth so as to have at least a better life...

Recovery of Indian economy after the pandemic

By Sabita Shahin, S.Y.B.COM A

The economic of the COVID-19 pandemic in india has been largely disruptive. India's growth in the fourth quarter of the fiscal year 2020 went down to 3.1% according to the ministry of statistics. The chief economic adviser to the government of India said that this drop is mainly due to the coronavirus pandemic effect on the Indian economy. Notably India had also been witnessing a pre-pandemic slowdown, and according to the World Bank, the current pandemic has “magnified pre-existing risks to indies economic outlook.”

The World Bank and rating agencies had initially revised Indies growth for FY2021 with the lowest figures Indies has seen in three decades since India's economic package in mid- May, India's GDP estimating were downgraded even more too negative figures, signaling a deep recession. On 26 may, CRISIL announced that this will perhaps be India's worst recession since independence. State bank of India research estimates a contraction of over 40% in the GDP inQ1. The contraction will not be uniform, rather it will differ according to various parameters such as sate and sector. On 1 September

2020, the ministry of statistics released the GDP figures for Q1 fy21, which showed a contraction of 24% as compared to the same period the year before.

“Silver lining of a deadly pandemic”- this sounds like an oxymoron, but its true when it comes to COVID-19. Even through the COVID-19 pandemic has wreaked havoc around the world and brought the world economy to a near standstill.

People face lots of impact during COVID-19 pandemic Since people have staying home, all types of travel also come to a halt, virtually eliminating the smoke generated by countless vehicles on the streets of the world, not to mention those contributed by airplanes, trains and other means of transportation. These factors have caused carbon dioxide and nitrogen dioxide emissions to fall drastically, making the air around the globe, particularly metropolitan cities just a bit cleaner and the skies, a bit bluer.

To enforce social distancing, businesses where people gather have been forced to close. The entertainment industry consisting of movies theaters, sporting events, concerts etc.is reeling under these constraints. Another sector that has been affected gravely is the service industry including restaurants, beauty salons, spas, barber shops etc.

Stock markets have crashed and plenty of large and small business have had to file for bankruptcies because they were unable to stay afloat and pay their bills without any income. However, the real face of the economic impact of the COVID-19 lockdown is not that of large companies going bankrupt, that of millions of daily wages labors and low income people who are out of work. Without any income during the lockdown, they have no way of feeding their families or keeping a roof over their heads.

Most governments have enacted rules temporarily preventing tenants from being evicted for not paying rents during the pandemic, but few have offered rent forgiveness. Even if the laborers are willing to risk their lives and go to work, the constraints imposed by government lockdowns make this nearly impossible and employment opportunities are next to none.

How are poor laborers who were constantly struggling to make enough money for one month’s rent going to find the means to pay the back rent that is piling up, when they do not even have a job? Many economists predict increased unemployment, homelessness and bankruptcies in the months following the COVID-19 pandemic, leading to a global recession that could last years.

Usually, when one country faces a problem like a natural disaster, help will pour in form around the globe. But now, all countries are struggling with the COVID-19 pandemic and hence, help from abroad might be limited but there is one aspect in the world where it’s having a positive impact-“the environment.”

Through these signs of nature healing during the COVID-19 lockdown may give us hope that this could be a sustainable change, experts predict that such an outcome seems highly unlikely. Once the pandemic is over and the lockdowns are lifted, vehicles will start rolling, factories will come to life again, and the pollutants will cloud the air, just as it did before the lockdown.

Some experts even suggest that people may shirk public transportation in favor of private conveyances like cars to reduce the risk of being infected , thus leading to more vehicles on the streets post lockdown, causing more air pollution .

Nature has been the big winner during the COVID-19 pandemic. While human interference has been paused for the past few months, Mother Nature has reclaimed a bit of what humans took from her. Oil refineries and factories that spew venomous smoke into the atmosphere have been shut down.

Even though the positive effect the lockdown has had on the environment may not last long, it is still eye-opening to see how humans have exploited nature and the way mother nature tries to heal when humans leave her alone for some times. Hopefully, world leaders, environmentalists and policy makers have seen the uplifting visuals of nature regeneration during the lockdown and will try to take stronger steps to protect the environment in the future.

The role of mass media during the pandemic:-

Coronavirus disease 2019 (COVID-19) pandemic has produced a global health crisis that had a deep on the way we perceive our world and everyday lives. Not only the rate of contagion and patterns of transmission endangered our sense of security, but the safety measures put in place to contain the spread of the virus also required social distancing by refraining from doing what is inherently human, which is to find comfort in the company of others. Within this context of physical threat, social and physical distancing, the role of the different mass media channels and social media in lives on individual, social and societal levels cannot be underestimated.

Role of social media has changed the way of transmission and consumption of information. Social media becomes a source of information and misinformation. Social media also influence public response to the outbreak. During the COVID-19 pandemic, we saw individuals, organization, and businesses use social media to spread awareness of the virus, people boasted and shamed panic buying, social distancing and home quarantine become trends and fundraisers organized and distribute on social to help raise money for those in need. People posted pictures and videos to share their experiences.

Role of television and radio are increased during the pandemic while the use of radio declined but the role of television and radio is crucial as most of the medium is not accessible. They are loaded with world responsibility and it's not only entertaining the audience but also providing with relevant and genuine data. During lockdown the distribution of print media like newspaper and magazines have gone down. People fear and don't want to risk any possible transmission of virus

I can say that mass media is playing a very important role in the dissemination of the COVID-19 related information to the general public. However, the misleading or wrong information shall be checked in the large public interest. The ND government has set a target to make India a US\$ 5 trillion economy by 2025. The Indian economy would need to explain at a 9% CAGR to achieve this target, this currently looks difficult given the impact of covid-19 related lockdowns on the economy. But signs suggest that the economic downturn may have bottomed out, and foreign institutional investors have already started placing bets on the future prospectus of Indian economy.

The Indian economy contracted by 23.9% YOY in Q1 2020-the largest GDP contraction recorded in a quarter. The industrial gross value added fell by 22.8% in q1 2020. Almost all sectors except for the agriculture, forestry and fishing sector, have been hit hard because of the nationwide lockdown. the

manufacturing and construction sectors shrunk by 39.35 and 50.3%, respectively while the overall services sector, the key driver of the Indian economy, contracted by 20.6%.

However, there are indications that the worst is probably over. As the economy gets unlocked, manufacturing and industrial activities are gradually resuming and the lockdown induced pent-up demand is also aiding the economic rebound. India's PMI recovered from 27.4 in April 2020 to 55.8 in October 2020.

The Indian economy has started to recover from the pandemic-induced slowdown on the back of various government initiatives and is expected to carry this momentum into the short-term timeframe.

Government initiatives

As the economy went into a free-fall, the government was quick to introduce a stimulus package, Atmanirbhar Bharat Abhiyan approximately worth RS. 20 trillion to jumpstart the economy. In addition, it took fresh measures to improve infrastructure, regulations and job opportunities that will likely aid in sustained economy recovery and rebuilding.

The Atmanirbhar Bharat Abhiyan aims to make the country self-reliant with focus on local manufactures and services providers. The five pillars of this programme are economy, infrastructure, technology-driven system, demography and demand. It emphasizes on enhancing import substitution, reviving demand and promoting export-oriented industrialisation as the key drivers of India's future economic growth. Banking, businesses & MSMEs and agriculture are some of the key beneficiaries of this initiative with 24.4%, 17.12%, and 16.3% allocations, respectively.

Healthcare needs to remain the top priority to achieve the economy sustainability of India. The scheme aims to cover 500 million beneficiaries, primarily the poorest and provide coverage of approximately RS. 500,000 per family, per year.

Also, building resilient and sustainable infrastructure would help increase the production of capital goods, provide employment and revive private sector confidence. Investment in infrastructure could be a way to achieve this objective. The ₹111 trillion national infrastructure pipeline built on infrastructure vision 2025 was announced in December 2019.

The Make in India initiative was launched by the government in 2014 to encourage international firms to select India as their manufacturing center and galvanize the economy by investment in manufacturing and services. The initiative aimed to increase the manufacturing sector contribution to the GDP to 25% by 2025 from ~16-17% at present. With numerous international companies looking to shift their manufacturing base from China due to intensifying Sino-US trade friction, India is vying to occupy a major share of the supply chain shift. In March 2020, the government announced incentive for niche electronics manufacturers that make them eligible for a payment of 4-6% of their incremental sales over the next five years. As a result, about two dozen companies such as Samsung, Micromax and Wipro, have pledged \$1.5 billion worth investment to set up mobile phone factories in the country. The government has approved a production-linked incentive scheme with an expenditure of ₹2 trillion for 10 sectors, including electronics and technology products, automobile and auto components, pharmaceuticals, telecom and networking products, textile products and food products.

A sound and resilient banking and financial sector is the key to the economic prosperity of India. The government is consolidating the public sector bank, which are the key players in the Indian market, to increase efficiency and accountability. The npa crisis that has been plaguing the posts in India- is also being addressed with the government looking to set recovery target for the same.

Investments

The Indian economy operates on a delicate balance of state intervention and free market the foreign direct investment policy more investor friendly and removed the policy bottlenecks that have been hindering investment inflows into India. Fids in India have increased by ~16% yoy to us\$27.1 billion from April 2020 to august 2020.

Fid equity inflows in India stood at us\$ 49.97 billion in 2019-20, with service sector attracting the highest fid equity inflow of us\$ 7.85 billion, followed by computer software and hardware at us\$ 7.67 billion, telecommunications sector at us\$ 4.44 million and trading at us\$ 4.57 billion.

Foreign portfolio investors – (FPI-FII) have been one of the biggest drivers for Indies financial markets: investment rs. 12.9 trillion In India between 2020 and 2021, at a time when most Asian markets are suffering from net withdrawal. This pony's to a high investor's confidence in the long-term prospects of Indian markets.

India's population is among the youngest in the world. By 2022, the youngest in the world. By 2022, the median age in India will be 28 years; in comparison, it will be 37 in china and the us and 45 in western europe. India's working than its non-working age population. Thus, India currently enjoys a demographic dividend, which is said to have commenced in 2055. India is also the second- most population county in the world with ~ 1.3 billion citizens. However, for India to reap the economic benefits of a vast and burgeoning working population and develop into an economic superpower, it will have to ensure to cheat a high number of skilled jobs.

Starting that India needs many things to be right for its recovery to continue, S&P said the country needs to quickly and thoroughly vaccinate most of its 1.4 billion people.S&P global ratings on Tuesday said Indian economy is on track for a recovery in the next fiscal year beginning April 1, as consistent good performance of the farm sector flattening COVID-19 infection curve, and a pickup in government spending are all supporting the economy. Starting that India needs many things to be right for its recovery to continue, S&P said the country needs to quickly and thoroughly vaccinate most of its 1.4 billion people.

“The emergences of yet more contagious COVID-19 variants with thaw potential to evade vaccine-derived immunity present a major risk to this recovery. As does the possibility of early withdrawal of global fiscal stimulus,” S&P SAID IN a REPORT TITLED ‘Cross-sector outlook: Indies escape from coved’.

It is said that budget for fiscal 2021-22, will also support the recovery, with higher than expected expenditures. India's improving growth prospects are critical to its ability to sustain the higher deficits associated with its more aggressive fiscal stance.

The economy still faces important risks as it transitions from stabilization to recovery. We estimate that India faces a permanent loss of output versus its pre-pandemic path, suggesting a long-term production deficit equivalent to about 10 % of GDP.

The Indian economy is on track for a recovery in fiscal 2022, bolstering corporate earnings and demand for utilities. The recovery's pace and scale determines the sustainability of government's higher fiscal deficit and debt stock consistently good agriculture performance, a flattening of the covid-19 infection curve, and a pickup in government spending are all supporting the economy.

The US-based rating agency said a sustained earnings rebound is key for ratings to stabilize as roughly one quarter of ratings are still on negative outlook. On the banking front in India, it estimates the system weak loans ratio at 12% of gross loans and credit cost to remain elevated at 2.2- 2.7 %

Economic recovery post pandemic is a global crisis that has hit the world on multiple fronts. As a result, India's economy has taken a massive hit. There has been a sharp contraction in economic activities in 2020. The economy is believed to resume to positive growth this year. Economic recovery post – pandemic is an important topic over the world.

The Indian economy was one of its worst ever phases even before the covid-19 pandemic. GDP growth fell continuously for eight quarters. GDP was 8.2% in March 2018 and had fallen to 3.1% in March 2020. Private consumption and investment had collapsed even before the pandemic. Nominal GDP growth in 2019-2020 fell to just 7.2%, the lowest since 1975-76. As per the data from the controller general of accounts, gross tax revenue collections were 81.6% of the budget estimates in 2019-20, which is the lowest since 2000-01.

In the wake of the pandemic with rampant job losses and surging covid-19 case, the Indian economy was facing a recession in September 2020. The economy recorded the largest GDP contraction 23.9% for a financial year quarter in the first quarter of 2020. The manufacturing and construction sectors shrank by 39.3% and 50.3% respectively, while the overall services sector by 20.6%. As the economy gets unlocked, it has started to recover from the pandemic-induced slowdown on the back of various government initiatives and is expected to carry on this momentum.

Indicators of recovery post pandemic

In this section, we talk about a few indicators of economic recovery in the post- pandemic phase, although the pandemic as of April 2021, seems to be entering into another phase of surging infections. It is safe to say that we are not yet in the post- pandemic phase in the true sense of the word.

Nibri index:

Numara's India business resumption index a measurement for tracking the extent of normalization in the economy, hit 98.1 points in February 2021. It had hit a record low at 44.8 in April- June during the national lockdown. The economy has reflected growth prospects due to fiscal active investments:

Fdi equities inflows in India stood at US\$ 49.97 billion in 19-20. Foreign portfolio investment has been RS 12.9 trillion in India between 2020 and 2021.

GDP indications

The national statistical office estimated real gdp growth the be -7.7% as opposed to -10.3% projected by IMF in OCTOBER 2020.RBIs monetary policy committee had projected a GDP of -7.5%.

Revival of imports and exports: Merchandise imports experience a growth of 7.6 per in December 2020. The rise in the imports of pearls and precious stones, machinery and electric goods shows the revival of domestic economic activities. Financial market surges the base index jumped 91 per cent from a record low of 25881 in over 10 months.

GST collection

The GST collection was RS 1.15 lakh core in December 2020.the collection was the highest since the GST implementation

India's economy and recovery factors

Some of the stimulus packages introduced by the government are

The finance minister announced an INR1.7 trillion relief package in march 2020

The prime minister of India declared a covid relief package of INR 20 trillion in May 2020.

It was termed atmanirbhar bharat abhiyan.

The cabined package works out to roughly 10 percent of the GDP.

It includes an RS1.7 lakh crore package of free food grains to the poor and cash to poor women and the elderly.

The finance minister announced a comprehensive stimulus package worth INR 2.65 lakh crore in November 2020.

Atmanirbhar bharat abhiyan

By Cenova Tracy Andrade

There are five pillars of this programmer are economy, infrastructure, technology-driven systems, demography and demand. Import substitution, reviving demand and promoting export-oriented industrialization were three prime focused areas. The key beneficiaries of this initiative are-banking, MSMEs and agriculture sectors. The scheme has 500 million beneficiaries in the health sector.

Household savings

The center for monitoring Indian economy, RBI said household financial saving in India shot up to 21% of Gaping the first quarter of the fiscal year 2020-21.the household financial saving was 7.2 per cent in 2018-19 and 8.2 percent in 2019-20... CMIE managing directors cited a recent report by the McKinney global institute that expected a strong rebound in consumer demand with the end of the

pandemic in countries like us, china and Germany.as mobility restrictions are removed, households are in a strong position to spend. Household saving will pay vital role in the economy revival.

Consumer sentiment in India

As per the chief reports, the index of consumer sentiments in India was 46.8% lower in March 2021 then its average level during April 2019-march 2020.indian households witnessed a huge increase in saving but the sentiments recovery is not the same. The index of consumer sentiments tells about the changed views of households regarding the purchase of non-essential and durables. The fiscal transfers by the Indian government to household during the lockdown in the forms of mgneega and pm-kinas impacted consumer sentiments in rural areas. Consumer pyramids household survey, CMIE reports that the consumer sentiments in household with an annual incomeof over RS10 lakh were the least affected as of march 2021.

K-shaped recovery

Indies economy is expected to have a k- shaped recovery. The k-shaped recovery was most evident in the September 2020 quarter. Indies GDP is expected to grow by 12.5% in the fiscal year starting from april1, 2021.the increased inequality will hit the consumption and growth of the economy.

Conclusion

India's economy seems to be in better shape than apprehended post the pandemic. Government initiatives including fiscal and social measures have worked to the advantage of the economy in combating the slowdown. The covid-19 pandemic ha invariably changed the economies sentiments and functioning in India which is expected to have some long-term effects.

Father economic recovery and steps taken by the reserve bank of India and the Indian government to cushion the effect of the economic crisis have helped ease the stress on bank balance sheets.

“In my view, Indies banking system performing is likely to start improving is likely to start improving materially is fiscal 2023, trailing an economic recovery of 10 % in fiscal 2022. On positive note, banks are building capital buffers and reserves to deal with COVID crunch, S&P said.

१. जीवन त्यांना कळले हो !

माणसाचे एक महत्वाचे वैशिष्ट्य म्हणजे तो स्वप्ने बघू शकतो आणि ती स्वप्ने साकार ही करू शकतो. आपल्या आवडी-निवडी आपले छंद हा आपला श्वास असतो. माणसाचे छंद माणसाला जीवंत ठेवतात. जीवनाला अर्थ देतात. बऱ्याच वेळा आपण आपल्या ह्या आवडी-निवडीकडे दुर्लक्ष करतो आणि पैश्यांच्या मागे धावतो. असं करीअर निवडतो ज्यातून आपल्याला पैसा अपार मिळतो मात्र समाधान नाही मिळत. अशा आयुष्याला काय अर्थ आहे? तुम्ही खूप यशस्वी असाल पण जर खुश नसाल तर ह्या यशाचा काय फायदा?

लहानपणी आपण अनेक छंद असतात. नृत्य, संगीत, अभिनय, चित्रकला इत्यादी अनेक छंद आपण जोपासत असतो. पण ह्यातूनच आपल्याला करीअर करायचे असल्यास आपण ठरवून ही ते नाही करत. अपयशाला आपण घाबरतो आणि ठरलेला पारंपरिक रस्ता निवडतो. नवे काहीतरी करण्याचा प्रयत्न करत नाही. याने भारतातील कितीतरी कलावंत असेच वाया जातात. आपल्यात ज्या कोणत्या कला असतील त्यांना आपण टिकवले पाहिजे आणि त्यात प्रगती केली पाहिजे. बऱ्याच जणांचे घरचे एखाद्या अपारंपरिक मार्गाचा स्वीकार केल्यास विरोध करतात. पण त्यावर ही आपण मात केली पाहिजे आणि जे बरोबर आहे, ज्यातून आपली प्रगती होते त्या गोष्टी जरूर केल्या पाहिजेत.

आज आपल्याला अनेक संधी उपलब्ध आहेत. नृत्य, संगीत, कविता लेखन/ वाचन, चित्रकला, अभिनय इत्यादी गोष्टींचे आपण विडिओ काढून यूट्यूब सारख्या माध्यमांवर घालू शकतो आणि त्यातून प्रसिद्धी, प्रगती आणि पैसा अशा गोष्टी जोडू शकतो. ह्यासाठी आपल्याला मोठ्या साधनांचीही गरज नाही. आपण आपल्या स्मार्टफोन वरून ही करू शकतो. ‘सीक्रेट सुपरस्टार’ सारख्या चित्रपटातून आपण नक्कीच प्रेरणा घेऊ शकतो.

आपल्या जीवनाचा रस्ता आपण ठरवतो. ह्या जीवनाची गाडी आपल्यालाच चालवायची आहे. कुठे जायचे, कुठे थांबायचे ही आपल्या हातात आहे. त्यासाठी आपल्या स्वतंत्र विचारांनी आपण जगले पाहिजे. तेव्हाच आपल्या जीवनात आपण सफल होतो. आपण कधीच खचून जाता काम नये. सिने अभिनेत्री व नर्तकी नोरा फतेही हिने आपल्या नोकरीची सुरुवात एक कॉर्ट्रॅक्ट डान्सर म्हणून केली होती. पण आज ती आघाडीची सिने नर्तकी आहे.

सगळ्या पालकांनीही आपल्या मुलांसोबत ही चर्चा केली पाहिजे. त्यांना आयुष्यात काय हवं आहे. ते कशात खुश आहे, त्यांना काय करायचे आहे जीवनात ह्या गोष्टींवर बोलले पाहिजे. महत्वाचे म्हणजे आपल्या मुलांना समजून घेतले पाहिजे. आजचे युग वेगळे आहे. आज शिक्षणाबरोबरच सर्वांगीण विकास ही तितकाच महत्वाचा आहे. त्यामुळे मुलांना नृत्य, संगीत, लेखन अशा इतर कला प्रकारांमध्ये रस वाटत असेल तर त्यात वाईट काहीच नाही हे आपण समजून घेतले पाहिजे.

जर पाण्यातल्या माश्यांना आपण उडायला लावले आणि पक्ष्यांना पोहायला लावले तर ते चुकीचे ठरेल. जर सचिन तेंडुलकरवर नोकरी करण्यासाठी जबरदस्ती केली असती तर आपण त्यांना क्रिकेटचे दैवत मानू शकलो नसतो.

तुम्हाला काय बनावयचे आहे आणि तुम्ही कोण आहात यातले अंतर म्हणजे तुम्ही सध्या काय करत आहात. शुन्यालाही किंमत देता येते, फक्त त्याच्यापुढे एक आकडा होऊन उभे रहा. त्यामुळे ही जीवन तुमचे आहे तुम्हाला हवे तसे जगा. मनसोक्त ह्या जीवनाचा आनंद लुटा.

भारत कल, आज और अब

एक देश उन्तीस राज्य, अलग अलग त्योहार अलग अलग लोग, अलग अलग लोगों की अलग अलग सोच और ऐसे सिर्फ भारत में है। यहाँ हर गली में रोनाल्डो है और गाने में जस्टिन बीबर भी।

साल १९४७ में भारत ब्रिटिश के चंगुल से मुक्त हुआ था और आज फिर से मुसीबत में फँसा है। यह हैवान इंसानों के भेस में घूम रहे हैं। बलात्कार, चोरी, खून ये सब पहले हुआ करता था और ये सामान्य है।

एक दूसरे साथ घूमते थे, एक दूसरे के साथ खाना खाते थे और आज वही लोग.. वही लोग एक दूसरे के जान के दुश्मन बन गए हैं।

तकनीकी....बहुत बढ़ गई है खाना खाने का मन है तो उठाया फोन और खाना ऑर्डर किया ..

शॉपिंग करनी हो तो मोबाईल ही पर शॉपिंग कर ली, बाजार जाने का टाइम ही नहीं बचा, सब घर पर ही आता है।

पूर्वजों के जमाने में उतनी तकनीकी नहीं थी जितनी आज है। भारत बहुत अच्छा है इसलिए बाहर से लोग भारत को देखने के लिए आते हैं। मुंबई सपनों का शहर है सपनों के शहर में लोग सपना लेकर आते हैं। और सपनों का शहर सिर्फ भारत में है।

पढ़ो लिखो और जॉब ले लो।

कहाँ यार.. आनेवाले समय में तो जॉब वर्ड ही नहीं रहेगा। महाराष्ट्र में एच.डी.एफ.सी. बैंक है वहाँ पर तो जॉब रोबोट संभाल रहे हैं। और तो और चेन्नई में एक होटल है, वहाँ पर तो रोबोट ही रोबोट हैं। ना तो उनको पैसा चाहिए, ना खाना बस मालिक बहुत खुश।

पुराना भारत कहता है, मैं कर सकता हूँ यह मेरा विश्वास है। मैं कर सकूँगा , यह मेरा घमंड है। मैंने कर लिया है यह मेरी जीत है।

आज का भारत कहता है, मैंने बलात्कार कर लिया है तो यह भूतकाल है। पुलिस मुझे दूँद रही हैं यह मेरा वर्तमान काल है। मुझे फांसी होनेवाली है यह मेरा भविष्यकाल है। आज कल के लोगों की सोच इसी पैराग्राफ में है। सोच बदलो यार सोच बदलो ,ये भारत न तुम्हारा है और न मेरा ये भारत सबका है।

एक लड़की का बलात्कार हुआ , बस दो दिन टीवी पेपर पर हेडलाइन दिखाते हैं। और फिर भूल जाते हैं। लेकिन जब एक नेता इलेक्शन जीत जाता है तो पूरा महिना हेडलाइन दिखाते हैं। ये है आज का भारत।

हर सुबह माँ बाप का आशीर्वाद लेकर बच्चे बहार जाते हैं और आज मोबाईल चार्जिंग करके बहार निकलते हैं। ऐसा है आज का भारत। हर सुबह पंछियों की मधुर आवाज सुनाई देती है। और आज जिसको डिस्को, दीवानी, लैला मैं लैला ऐसा सुनाई देता है। यह है आज का भारत।

काम करो पैसा कमाओ यह स्कीम गई। गेम खेलें पैसा कमाओ यह आज की स्कीम है। २१ दिन में पैसा डबल होने में होने में २१ दिन इंतजार करना पड़ता था। और आज एक गेम खेलने पर २९ मिनट में पैसे ट्रिपल।

ओ मेरी महबूबा मैं तुझे ताजमहल बनाके दूँगा सच में.. चलो छोड़ो यार , कल की महबूबा को ताजमहल नहीं बुर्ज खलीफा चाहिए।

तंबाकू के पॉकेट पर खतरा लिखा होता है फिर भी लोग तंबाकू खाते हैं। सच तो ये है कि भारत के लोग खतरों के खिलाड़ी हैं। ऐसा है आज का भारत।

साल १९५० में हर एक घर में ९०-९२ बच्चे हुआ करते थे और उनका खर्च करीबन ५० रुपया था। आज २०२१ में बच्चा हुआ तो गिराते हैं और उनका खर्च लाख है।

आज एक दूसरे की बिल्कुल भी परवा नहीं करते बस एक दूसरे के भावनाओं के साथ खेल खेलकर जाते हैं। ऐसा है आज का भारत।

मोबाइल स्कूल में बंदी था और आज वही मोबाइल से स्कूल चलता है। ये है आज का भारत।

जब दो लोगों की सोच बदलेगी तभी तो बदलेगा भारत।

जब भारत में लोग ही नहीं रहेंगे तब भारत माता कूट-कूट कर रोएगी। इसमें हम तो मर जाएंगे। पर इस भारत माता को रोने मत देना जितना टेक्नॉलजी बढ़ाना होतो बढ़ाओ, जितना मज़ा करना हो तो करो पर इस देश का नाम पूरी दुनिया में गुंजना चाहिए।

-नवनाथ वेलिप- (द्वितीय वर्ष)(कला शाखा)

पंखुड़ियां

<p>पंखुड़ियाँ एक डाल पर दो फूल दिखे हैं एक पन्ने पर दो बोल लिखे हैं जरा गौर से सुन्ना</p> <p>गुलाब से है एक गुजारिश जरा संभलकर रहे बड़ी बेरहम है ये बारिश बुँदे पंखुड़ियों को सताएगी हवाएं अपने साथ ले जाएगी जरा संभलकर रहे तो देखना कल पंखुड़ियाँ और निखर आएगी</p>	<p>पर तेरे बिखरने से तेरा जिक्र नहीं जाएगा तेरा एक और साथी है जो कल निखर आएगा हवा का तेज झोंका आया तो बिखरती हुई पंखुड़ियाँ बोली मौसम का कोई दोष नहीं है मुझे ही कोई होश नहीं है</p> <p>मेरी बिखरती पंखुड़ियों की तरह दुनियाँ में मदहोश कई है।</p> <p>-आकांक्षा कोकाटे -तृतीय वर्ष (कला शाखा)</p>

बेटियाँ

बेटियाँ

बेटियाँ होती है पापा की परी

बेटियाँ होती है माँ की लाइली

बेटियाँ होती है दादा की प्यारी

बेटियाँ होती है दादी की दुलारी

लेकिन क्यों नहीं दिया जाता है उनको सम्मान ?

क्यों सताया जाता है?

क्यों होता है उनके साथ बुरा व्यवहार

हमें हौसले की जरूरत है

हुमएन जरूरत है बढ़ावे की

आकार कोई साथ दे।

-मधू गुप्ता- तृतीय वर्ष (कला शाखा)

KONKANI

ती.... अशी....

कोरोनाची काणी

ती शांता, ती दुर्गा
ती जगत-जननी
ती जल्मदाती, ती तारणहारिणी....

तूं पयस कर,ती रावतली
तूं लीप,ती सोदतली
तूं चल,ती राखतली
तूं दुस्वास कर,ती मोग करतली
तूं यो,ती येवकारतली
तूं दुखय,ती हांसतली
ती.....अशी.....
क्षितीजा फळदेसाय
पयलें वर्स,कला.

इश्टागत
केन्ना झगडी,केन्ना मस्ती
केन्ना सुखी,केन्ना दुखी
थोडेशे खीण....खूब यादी
मोग,विश्वास,सांगात गरजेचे
नातें हें इश्टागतिचें...

श्रेया गांवकर
पयलें वर्स,कला.

खंयच्यान आयला कोण जाणा
कोणें हाडला देव जाणा
केन्ना वयतलो कोण जाणा
ताणें खाल्लें कितल्या जाणांक.....

दोतोर, नर्सी, पुलीस सगळें,
उल्याक आमच्या तें धांवलें....
आदाराचें हात सगळें,
दारा- दारांनी पावलें....

आयक भावा, आयक भयणी
हात जोडून करता मागणी
घरा भितर रावता तीच शाणी
नाजाल्यार सोंपतली
जिविताची काणी.....

वैशाली च्यारी
पयलें वर्स,कला.
